wherever people are working there is some type of stress and where there is stress there is the risk of burnout it is widespread the subject of numerous studies in the u s and abroad it is also costly both to individuals in the form of sick days lost wages and emotional exhaustion and to the workplace in terms of the bottom line but as we are now beginning to understand burnout is also preventable burnout for experts brings multifaceted analysis to a multilayered problem offering comprehensive discussion of contributing factors classic and less widely perceived markers of burnout coping strategies and treatment methods international perspectives consider phase models of burnout and differentiate between burnout and related physical and mental health conditions by focusing on specific job and life variables including workplace culture and gender aspects contributors give professionals ample means for recognizing burnout as well as its warning signs chapters on prevention and intervention detail effective programs that can be implemented at the individual and organizational levels included in the coverage history of burnout a phenomenon personal and external factors contributing to burnout depression and burnout assessment tools and methods the role of communication in burnout prevention active coping and other intervention strategies skillfully balancing scholarship and accessibility burnout for experts is a go to resource for health psychologists social workers psychiatrists and organizational industrial and clinical psychologists

organizational change projects often fail as they are notoriously difficult to design and control this text gives readers an understanding of organizational structures and presents a new and easy to understand framework which describes the three dimensions of organizational interventions the authors provide practical guidelines to show how interventions can be designed and controlled and draw on international case studies to illustrate their story this textbook will be suitable for postgraduate students of organizational development design and change and practitioners carrying out organizational development projects provided by publisher

which citizens have fought america s wars which ones should fight in the future and how should they be recruited should military or other national service be an obligation for every

citizen david segal s probing look at the complex issues behind these questions tells us much about the changing manpower needs of our armed forces and about the evolution of civil military relations in the united states segal analyzes the mobilization contributions and limitations of drafted reservist and volunteer forces from the early days of the republic to the present in the process he shows how americans have come to separate the benefits of citizenship from service to their country symptomatic of this separation is the current reliance on an all volunteer military a system that treats military service more as an occupation and opportunity for self advancement than as a civic duty and obligation drawing on a vast interdisciplinary literature in american history sociology political science and economics segal illuminates the ways demographics weapons technology international relations scientific management and social policies have all affected the composition of america s armed forces he also shows how the military anticipated and expanded the american welfare system and played a pivotal role in creating better opportunities for minorities and women the capabilities and performance of u s armed forces in future conflicts will depend on a thorough understanding of and informed response to the crucial manpower issues segal discusses his thoughtful study should be required reading for military professionals and policymakers and will be of interest to anyone concerned about the future of this country s armed forces

an excellent addition to our understanding of rural development and intergovernmental management its solid scholarship enlightened conceptual framework and clear writing style make it a welcome addition to the field of public policy and administration b j reed university of nebraska at omaha

reveals how cold war u s presidents intervened in latin america not as the official argument stated to protect economic interests or war off perceived national security threats but rather as a way of responding to questions about strength and credibility both globally and at home
