this acclaimed influential work applies the concepts of systemic family therapy to the emotional life of congregations edwin h friedman shows how the same understanding of family process that can aid clergy in their pastoral role also has important ramifications for negotiating congregational dynamics and functioning as an effective leader clergy from diverse denominations as well as family therapists and counselors have found that this book directly addresses the dilemmas and crises they encounter daily it is widely used as a text in courses on family systems and pastoral care

systems theory is the basic theoretical model underlying most contemporary family therapy in this accessible introduction the author traces how systems theory gave rise to family systems theory outlines the basic propositions of family systems and links it both to other family theory literature and to clinical practice

among the topics covered are relational space family boundaries family stratification and child socialization family meanings and such shared realities as family folklore stories myths and memorabilia are discussed family rituals are also explored

developmental psychopathology seeks to unravel the complex connections among biological psychological and social contextual aspects of normal and abnormal development this volume presents the core and cutting edge principles of the field in an integrative accessible manner the investigatory lens is focused on the primary context in which children develop the family reviewing current research in such areas as attachment and parenting styles marital functioning and parental depression the volume examines how these variables may influence developmental processes across a range of domains and in turn predict the emergence of clinical problems illuminated are the interplay of risk and protective factors biological and contextual influences and continuous and discontinuous patterns of development in childhood and adolescence also considered in depth are the ways in which the developmental psychopathology perspective points to new directions in diagnosis prevention and treatment of child emotional and behavioral disorders featuring a wealth of figures tables and illustrative vignettes this is a valuable source book for practititioners scholars and other professionals in mental health and related disciplines it will also serve as a text in graduate level courses on developmental psychopathology and clinical child psychology

this authoritative handbook provides a definitive overview of the theory and practice of couple therapy noted contributors many of whom developed the approaches they describe combine clear conceptual exposition with thorough descriptions of therapeutic techniques in addition to presenting major couple therapy models in step by step detail the book describes effective applications for particular populations and problems chapters adhere closely to a uniform structure to facilitate study and comparison enhancing the book s utility as a reference and text see also clinical casebook of couple therapy also edited by alan s gurman which presents in depth illustrations of treatment

a project of the bureau of jewish education of san francisco jewish family education offers cases and commentaries that highlight issues of working with families in educational settings this collection of cases all of which document dilemmas in family education can play a role in the education of both experienced and novice family educators included are case studies with commentaries matched text studies analysis and facilitators notes to running study sessions

according to management and psychology courses as well as legions of consultants in organizational psychology shared vision in dyads teams and organizations can fill us with hope and inspire new possibilities or delude us into following false prophets however few research studies have empirically examined the impact of shared vision on key organizational outcomes such as leadership effectiveness employee engagement organizational citizenship coaching and organizational change as a result the field of organizational psychology has not yet established a causal pattern of whether if and how shared vision helps dyads teams and organizations function more effectively the lack of empirical work around shared vision is surprising given its long standing history in the literature bennis and nanus 1982 showed that distinctive leaders managed attention through vision the practitioner literature has long proclaimed that vision is a key to change while conger and kanungo 1998 discussed its link to charismatic leadership around the same time positive psychology appeared in the forms of appreciative inquiry cooperrider sorensen whitney yaeger 2000 and positive

organizational scholarship cameron dutton quinn 2003 in this context a shared vision or dream became a legitimate antecedent to sustainable change but again empirical measurement has been elusive more recently shared vision has been the focus of a number of dissertations and quantitative studies building on intentional change theory ict boyatzis 2008 at dyad team and organization levels of social systems these studies are beginning to lay the foundations for a systematic body of empirical knowledge about the role of shared vision in an organizational context for example we now know that shared vision can activate neural networks that arouse endocrine systems and allow a person to consider the possibilities of a better future jack boyatzis leckie passarelli khawaja 2013 additionally boyatzis akrivou 2006 have discussed the role of a shared vision as the result of a well developed set of factors that produce a desired image of the future outside of the organizational context positive visioning has been known to help guide future behavior in sports psychology loehr schwartz 2003 medical treatment roffe schmidt ernst 2005 musical performance meister krings foltys boroojerdi muller topper thron 2004 and academic performance curry snyder cook ruby rehm 1997 this research topic for frontiers in psychology is a collection of 14 original papers examining the role of vision and shared vision on a wide variety of desired dependent variables from leadership effectiveness and executive performance to organizational engagement citizenship and corporate social responsibility and how to develop it through coaching

this text offers a straightforward comprehensive overview of both traditional and evolving theoretical models of family therapy and intervention techniques as well as a discussion of clinical issues unique to family therapy practice aiming to prepare students to develop beginning proficiency in family therapy the authors outline major family therapy models in detail including a step by step description of concepts theories skills and techniques as well as a history of each model and its conceptual and theoretical underpinnings the text also provides extensive case illustrations of family interviews that identify the specific stages clinical issues concepts theories and techniques associated with each model this core text is designed for graduate level courses such as family therapy marriage and family therapy marriage and family counseling family systems theory and family counseling in departments of social work psychology nursing education or human services

nurses and social workers who work in urban hospital emergency departments frequently encounter youths who are involved in gang violence and substance abuse who are depressed who have attempted suicide or who have been sexually assaulted youth workers and probation officers need to recognize the multiple problems in which their charges may be involved such as sexual risk taking substance abuse delinquency and violence this handbook provides all the information necessary for all professionals working with adolescents to understand and recognize their major psychosocial problems each chapter is written by an experienced clinician or research scientist who is a recognized expert in his or her field topics include family problems substance abuse head injury attention deficit hyperactivity disorder depression suicide gang involvement antisocial behavior reproductive health sexual and physical abuse eating disorders and psychosis

this book looks at the familial lives of older americans including those who have never married or become parents
