this new volume in the award winning encountering mission series is for current and future missionaries it provides practical guidance regarding getting ready for the mission field and the realities of life on the field the authors are well qualified to write such a manual each having served as a missionary for more than twenty years and each having taught missions in seminary the authors begin by examining the contemporary context for missions including the recognition that the world's mission fields are in constant and often rapid change they then discuss aspects of preparing oneself for the mission field beginning with home front preparations and moving to on the field preparations the final section deals with practical issues and challenges of missionary life

the current religious climate poses unique challenges to those engaged in mission thus the authors of this book propose a new yet very biblical model for interacting with people of other faiths they term this model giftive mission as it is based on the metaphor of free gift we bear the greatest gift possible the gospel message adopting this perspective not only has the potential for greater missionary success but also enables us to more closely imitate god's gracious activity in the world the core of the book explores eleven practices that characterize giftive mission each practice is illustrated through the story of a figure from mission history who embodied that practice further discussion shows how to incorporate these practices in specific mission settings

with the development of instantaneous global communication it is vital to communicate effectively across cultural boundaries this addition to the acclaimed encountering mission series is designed to offer contemporary intercultural communication insights to mission students and practitioners authored by leading missionary scholars with significant intercultural experience the book explores the cultural values that show up in intercultural communication and examines how we can communicate effectively in a new cultural setting features such as case studies tables figures and sidebars are included making the book useful for classrooms
